

# Chemizer™ PLUS Chemical Management System

35063800

Chemizer™ PLUS! It's a complete program that manages the mixing of your chemical cleaning solutions with accurate dilution every time. A system that gives you new versatility, ease and durability. New ways to save time, labor and money.

## Chemizer PLUS Manages To Make It Simple!

- Dispenses up to 6 products from one unit
- Select from a wide variety of products
- Compact size fits into the smallest areas
- Can be used with Chemizer gallons, pails or drums

## Chemizer PLUS Manages To Be Safe!

- Minimizes contact with concentrated chemicals
- Color-coded labeling system helps prevent misuse
- Proper dilution control insures safe use

## Chemizer PLUS Manages To Be Environmentally Sensible!

- Concentrates reduce solid waste disposal requirements
- Recyclable packaging
- Built in back flow prevention protects potable water

## Chemizer PLUS Manages To Make Training Easier!

- Eliminates complicated dilution ratios, pumps, measuring cups
- Color coded product & label makes identification easy
- Just push the button

## Chemizer PLUS Manages To Be Smart!

- Saves money – reduces product consumption by up to 65%
- Provides a simpler and less complicated working environment
- Improves inventory control and space utilization
- Dispenses 4 items at low fill rates (1 gpm) for spray bottles, and 2 products at high fill rates (5gpm) ( for buckets and automated cleaning equipment)
- Ensures consistent dilutions and product performance
